

# ENVIRONMENTAL POLICY

POLICY

Date Updated: 1 December 2021

As a responsible corporate citizen, Independent Traffic Control Limited recognises that care for the environment, safety and health is fundamental to the management of iTraffic through the concept of development and contribution to society by creating and providing environmentally sound services.

1. iTraffic will establish environment, safety and health-related objectives and targets and pursue continual progress
2. iTraffic will comply with laws, regulations and agreements relevant to environment, safety and health
3. iTraffic will consider the environment, safety and health implications of each of our products throughout their life cycles in accordance with the ideals environmental sustainability
4. iTraffic will instil in our employees a thorough understanding of this fundamental purpose and policy
5. iTraffic will organize our operations so as to promote the safeguarding of the environment, safety and health and conduct audits to monitor progress throughout the company including:
  - Purchasing safe, sustainable products
  - Using only safe sustainable products
  - Working in safe sustainable ways to prevent environmental pollution
  - Disposing of waste material in environmentally safe ways and re-cycling where possible
  - Influencing others to protect the environment
6. iTraffic ensure that, by providing information, training and supervision, operations are conducted safely, and materials are handled properly. iTraffic try to prevent environmental pollution and avoid affecting the environment negatively by recycling waste, conserving energy and other resources and using materials that are environmentally friendly
7. iTraffic place the utmost importance on environment, safety and health-related considerations at all stages of the new operational processes
8. When asked, iTraffic provide the public and appropriate authorities with information about and business activities so that they may have an accurate understanding of our efforts to promote health, safety and environmental protection

The above purpose and policy shall be available to all employees, contractors, subcontractors and PCBUs, our clients and the general public.
